In the matter. Whether such a course is authorized by the existing ordinances may be an open question, but at all events the powers that be have shirked the responsibility and allowed things to take their course. We understand that a precedent actually exists for such measures to be taken by the authorities in an emergency, and that during Sir Arthur Kennedy's governorship, in 1875 or 1876, when the Colony was visited by an outbreak of pleuro-pneumonia, thirty-six infected beasts were at once slaughtered by the order of the Governor, and the disease stamped out. Such action would be rather late now as nearly all the animals in the Eastern and central districts have already fallen victims to the disease.

Since writing the above, the Legislative Council have sat, and have passed a new Ordinance for the dealing with contagious diseases amongst cattle, empowering the Government to slaughter infected cattle when considered necessary and to compensate the owners in certain cases.

Our Bangkok correspondent, writing on the 6th November, gives a somewhat fuller account of an accident in the Bangkok river, which was reported in our issue of the 11th instant. He says:—A melancholy accident happened here last Sunday night, by which Mr John Hunter, senior engineer of S. S. *Mongkut*, lost his life. It appears deceased was in the act of leaving the S. S. *Tachow*, where he had been visiting, about 8 o'clock, to proceed to his own vessel lying quite near, in company with the third engineer, (Mr Lindsey), and in stepping into a boat, from the gangway ladder missed his footing in the dark, and, overbalancing himself, fell into the river, where a very strong current was running at the time. The accident was witnessed by several, and boats were immediately lowered and every endeavour made with the aid of lamps to find him, but although the river was searched for hours afterwards, no trace of him could be found. He was never heard to utter a cry or seen to rise to the surface. He was a powerful man, of about 28 years of age, and a good swimmer, but it is thought in the fall his head must have come in contact with the gangway ladder thereby rendering him unconscious for the time, and the under currents carried him down.

The agents of the steamer offered a reward to natives for the recovery of his body, and yesterday one of them reported having found it down the river below Pakiet, about ten miles from where the accident happened. A party of friends immediately proceeded to the spot in one of the Dock Co's steam launches to identify the body and have it removed. They took the body with them conveying it to the cemetery, where it was coffined and buried this morning in the presence of a large number of friends. The Rev. Dr Macdonald conducted the burial services and gave an impressive address. Deceased, a native of Dundee, was much respected by his shipmates and all he associated with both in Bangkok and Hongkong, and they all mourn his loss and sympathize with his bereaved parents at home.

Says the *Shanghai Courier* of the 4th instant:—Many of our readers will regret to hear that news was received this morning of the death of Mr Joseph Thorne, formerly a partner in the firm of Thorne Brothers & Co. of Shanghai, and elder brother of Mr Cornelius Thorne.

No less than nine engineers left Shanghai for Yokohama in the last Japan mail steamer. The majority of them were noted characters who could not obtain their luck in Japan. A few years ago, engineers were unprocurable in Shanghai at any price. *Shanghai Courier*.

An American telegram, published in our columns a few nights ago, stated it was reported that the Duke of Newcastle had joined the Roman Catholic Church; but 'Atlas,' in the last received issue of the *World*, contradicts this by saying that the Duke of Newcastle has intimated to Viscount Halifax his desire to join the English Church Union, a very different thing from joining the Roman Catholic Church.

The *Englishman* publishes a complete list of foreigners resident in Mandalay on 8th instant, altogether upwards of eighty persons, of whom seven are English and American, eight Eurasians, seven Greeks, twenty Armenians, thirteen Italians, and including priests, some twenty five French. It is believed here that the Foreigners will not be interfered with and that Theobald will surrender when the expedition is on the frontier, but not till then.

The unhappy Oar, whether at home or abroad, with friends or strangers, seems always to be haunted by the fear of assassination. 'Atlas,' in the *World*, records the precautions taken for his safety at Copenhagen, where, surrounded by relatives and friends, one would have imagined his life was free from danger. He says:—A rumor is in circulation in St. Petersburg to the effect that an attempt will shortly be made in Copenhagen on the life of the Oar. The rumor, says I, am informed, caused immense sensation in the Russian capital. The King of Denmark has taken the most elaborate and strict precautions in order to protect the life of his august relative, as an example of which I may mention that nobody, on whatever pretext, is admitted within the precincts of Frederiksborg without King Christian's direct permission. In fact, so strict is the rule observed, that a few days ago the special representative of one of the principal London journals was refused admission to take some sketches of Frederiksborg, although furnished with the highest credentials.

It will be remembered (says the *Courier*) that a foreigner described as having blue eyes and light hair was killed during an attack the French made on the Chinese in Formosa. The foreigner referred to was employed by the Chinese government as a commander. At the termination of the Franco-Chinese difficulties this blue-eyed foreigner landed in Shanghai and has been here ever since. A few days back he was again engaged by the Chinese as Chief Gunner Instructor at Wooming, which post he now holds. The individual is Mr E. Purse, who has been for years in the Chinese service. When the attack was made at Formosa he happened to be seen, and with the French, it is supposed, to scare other Europeans from joining the Chinese, circulated the report that Mr Purse was killed.

It would be a good thing (says the *Shanghai Courier* of the 14th instant) if the paragraph which appeared in a recent number of the *Cathay Press* was taken some notice of. We happened to see the China Navigation Company's steamer *Meikong*, Captain Giles, leave port this afternoon. Her deck was completely covered from abaft the forward hatch to the stern with a layer of oil, and the bulkheads a quantity of oil was stowed, covered with cotton, in fact there was not moving a man on board the ship. From the Captain's quarters aft of the wheel-house up to the saloon the cotton was piled up to a height of 15 to 20 feet. She was very deep and should she experience any rough weather she would in all probability suffer greatly. The writer was in conversation with a southern trader's skipper the other day, and he mentioned the *Meikong*, that he had seen her at anchor at the wharf where we are ordered; should we show the slightest objection there are dozens to fill our place; cargo is always piled upon us against our wish, but what can we do when the agents or owners lead the ship then? Should a vessel come to grief loaded in the way the *Meikong* was this morning, the Captain's certificate would in all probability be suspended for a time, if not for good, for leaving port with the cargo in the vessel improperly stowed.

It was an incident of the first Burmese War:—The armistice agreed to by Sir Archibald Campbell was to expire on the 18th January 1862, and on the 17th four Burmese officers appeared in the English camp offering to pay down at once the first instalment, and promising the release of the captives at Ava, but asking for an extension of the armistice. Four officers were sent to Malacca to confer with the Weying, who pleaded sickness as a reason for not meeting the English Commission. The armistice of the British Commander, on the other hand, who was in the neighbourhood, and returning in about a quarter of an hour refused to agree. Nevertheless, next day he applied for an extension of the armistice for seven or eight days, alleging that he had as yet received no orders from Ava. This was known to be untrue and a further suspension of hostilities was refused. On the 19th the position at Malacca was assaulted and captured, and the original treaty was found to be a forgery. It was never intended to be sent up. It was forwarded by Sir A. Campbell to the Weying, who in return acknowledged it reminded the English General that with the Treaty he had also left him a bag of ropes for the restoration of which he was very obliged to.

Vide B. B. Gazette, Vol. I, p. 341.

The Mandalay correspondent of the *Rangoon Gazette* writes:—Mr Chevalier Peter Camaratta, well known to many of our readers as the 'Kullawoon' and who since Theobald's accession has lived in retirement, has suddenly been called upon to fill the post of newsvendor, or shall I say Press Commissioner to His Majesty. Upper Burma not having any dailies the King has to depend upon his beloved consort, the noble and beautiful Queen, for the news of the world, home and foreign, and chooses to rely on him. Apparently this arrangement has not been satisfactory and accordingly when it came to his Majesty's ears that Mr Camaratta, who, although he dresses in Burmese costume, is of foreign descent and speaks English thoroughly, was ordered to keep his Majesty's father informed of all local and foreign news, he determined to leave his services. Presently he has been shrouded upon Mr O. since his assumption of office, in order, it is said, to encourage him to do his duty properly, but to me this is suspiciously indicative of unpleasant truths having been kept by Mr Camaratta out of his budget of news. However let us hope that my suspicions are groundless; but Mr Camaratta, though not by any means the worst specimen of a Burmese official, is well known to have been a very bad one, and his removal would be a great benefit to the country.

Professor Blackie may be an estimable man and a very learned sage, but as far as we are able to judge from his verses addressed 'To the Right Hon'ble Joseph Chamberlain, M.P.' he is a poor politician and a worse poet. 'I have now at last a Man!' with a capital M is not the style that most men with small w's would care to address the new Joseph of Birmingham. Nor should a poet think much of rhyming 'babble' with 'squalid,' though there is no knowing what fearsome liberties Scotchmen may not take with the English language. Whigs and Tories, according to the worthy professor, have been keeping up a babble and a dinome squalid, while he has waited until God should send a champion like Moses to clove the sea. Whether recent trouble in Egypt suggested to the savant a connection between Joseph and Moses, we cannot say, but as God's champion Professor Blackie, who then proceeds to compare his idol, with a classicism that savours of irreverence, to Jore's red lightning which proclaims against the subterranean fumes of Hell, (with little m's) and when his prophetic prebush, their sure word means a blow, Professor Blackie's political and religious faith might apparently be summed up in—God and Jore are great, and Joseph Chamberlain is their prophet. On one point all are agreed, we conclude, 'like men' (with little m's) and when his prophetic prebush, their sure word means a blow, Professor Blackie's political and religious faith might apparently be summed up in—God and Jore are great, and Joseph Chamberlain is their prophet.
